NOVUS TSS 2500 DB

The Tetra Support System is the adaptable innovation for the modern workplace and provides you with a wide range of individually tailored mounting options. Extremely versatile, this system comes in a quality that is second to none. The Novus ceiling-floor column consists of a TSS column (diameter of 51 mm) which can be ordered in various lengths and is mounted between ceiling and floor. Supports such as TSS support carriage, notebook holder or keyboard holder can be mounted in the four slots of the column according to requirements. The application of the column depends on the floor and ceiling material. Two cable clips are included as a practical aid for routing cables.

Ceiling/floor mount. For mounting a TSS column between ceiling and floor. Use depends on type of ceiling and floor. Length can be corrected from - 15 to + 15 mm.

When used conventional.

This machine bears the GS approval of product safety.

Available in silver/ anthracite
